Hi, Marty,

We do not currently have any permit applications for such sources on the Indian country lands within the Uintah and Ouray Indian Reservation, but are very interested in the limits you are developing, as we may potentially start receiving new source applications starting October 3, 2016.

Thanks,

Claudia

Hi Marty, I am cc'ing Claudia and Monica on this email so they can follow up with you. I am no longer in the air program. Take care, Dee

Hi Dee. We are working on permitting some product recovery operations for wastewater from the oil and gas industry. These are typically just gravity separation process where the recovered product is stored in tanks and the wastewater is discharged to surface impoundments. We are working on a BACT analysis for these operations. Are you setting limits for these types of operations in the Indian Country FIP. We want to try to establish a level playing field in Utah for these operations. Are you available to talk about this next week. Let me know. Thanks.
